

**THIVE**

# Welcome to the Hive Home!

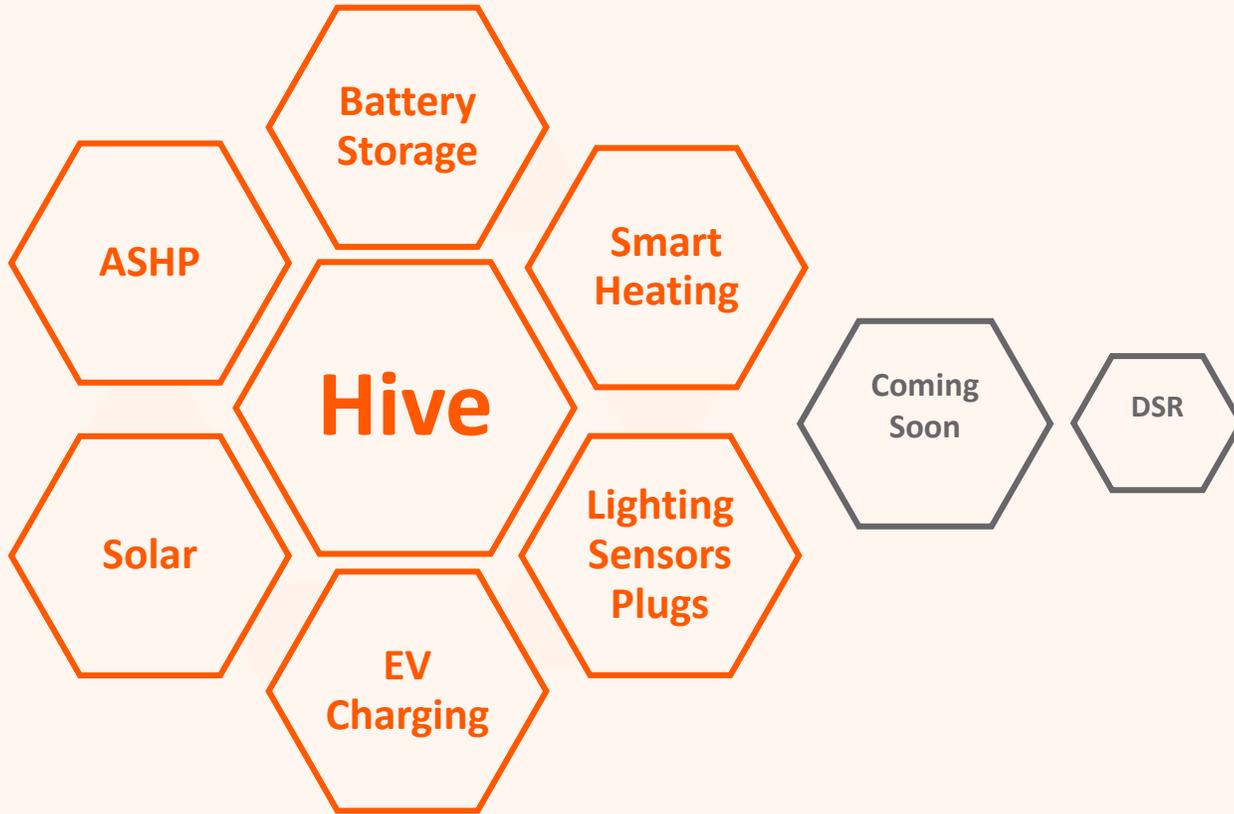

More than just smart heating

- Solar + Storage
- EV Charging
- ASHP
- Energy tariffs

# Hive brings this together for our customers

Hive has a key part to play in how consumers control the homes of the future.

-  Enabling control of the home
-  Reducing customer bills
-  Reducing carbon emissions
-  Reliable brands & service

## One app for everything

From heating and lighting to EV charging and motion sensors, control everything with the award-winning Hive app.

## Control your home hands-free

Hive is compatible with Amazon Echo, Google Home and Apple HomeKit.

## Technology you can trust

Hive is in 2.2 million homes and counting. That's more than any other smart home brand.

# Hive Installer Club

## **HIVE Installer Club –Our Mission**

To bring affordable green energy to every home across the UK and Ireland. But we can't do it alone—we need the support of skilled experts .

## **Introducing the HIVE Installer Club**

A transformative initiative designed to accelerate the growth of our Net Zero business while delivering commercial value and societal impact.

## **Our aim is to create a Community of Green Advocates**

Empower installers to become ambassadors of HIVE's eco-tech solutions, building a grassroots movement for sustainable living.

## **Incentivised Growth**

### **Installers will be rewarded via the new HIVE Installer App for:**

- Upselling energy, heating plus, HIVE eco-tech products
- Commissioning Eco- tech

[hivehome.com](https://hivehome.com) ❤️ Register Interest to become part of the club and support customers saving on their energy bills from today.

Thank You

Stephanie Doyle – HIC Director

A photograph of an owl perched on the edge of a solar panel. The owl is looking towards the camera with its large yellow eyes. The background is a blurred green and blue, suggesting an outdoor setting. The word "HIVE" is overlaid in large white letters at the bottom of the image.
